MCA student (graduating Apr 2026) with hands-on experience building **full-stack web applications** using React, Flask, and Firebase. Passionate about intuitive UI and cross-browser performance.

Education

SFR College for Women, Sivakasi

Master of Computer Applications

Jun 2024 - Apr 2026

CGPA 8.2/10.0

SFR College for Women, Sivakasi

Bachelor of Mathematics

Jun 2021 - Apr 2024

CGPA 8.5/10.0

Technical Skills

Languages : Python, Java, SQL, Javascript

Tools : Visual Studio Code, Git, GitHub, Figma, Claude

Technologies : Bootstrap, Tailwind CSS, React JS, Dialogflow, Firebase

Professional Experience

Phoenix Softech

Madurai, Tamilnadu

Apr 2025 - May 2025

Web Design Intern

Contributed to improving the usability and visual consistency of client-facing web pages during a focused one-month engagement.

- Audited live web pages for UI and layout issues, identifying and resolving bugs that were causing inconsistent rendering across browsers and screen sizes
- Rebuilt 3+ web pages to be fully responsive using HTML, CSS, and JavaScript, ensuring smooth experience on mobile and desktop
- Redesigned navigation structure and visual hierarchy to reduce user friction and improve findability of key content
- Implemented and validated cross-browser compatibility fixes, ensuring consistent behavior across Chrome, Firefox, and Safari

Academic Projects

Integrated College Web Portal with Event Management and Chatbot Support

Jan 2026 - Mar 2026

Built a full-stack web portal used by students and staff to access academic information, track campus events, and get instant query resolution — reducing dependency on manual admin communication.

- Designed and deployed a responsive multi-page portal with clean navigation, serving users across mobile, tablet, and desktop with zero layout breakage
- Built an event management module enabling admins to publish, update, and manage college announcements in real time — replacing a previously manual bulletin process
- Integrated a Dialogflow-powered chatbot that handles common student queries (schedules, deadlines, contacts) instantly, cutting repetitive back-and-forth with admin staff
- Diagnosed and resolved 10+ UI and navigation bugs during testing, improving task completion flow across the portal
- Structured and optimized the SQLite/MySQL database schema to ensure fast page loads and clean content retrieval at scale

Tech Stack: React JS · Bootstrap · Python · Flask · SQLite / MySQL · Dialogflow · Visual Studio Code
